

NEW YORK**Saratoga County**

Petrified Gardens—four miles west of Saratoga Springs. The area includes the best exposure of calcareous algae (cryptozoon) fossil reefs, which are a milestone in the evolution of plant life. (April 1967) Owner: private.

VERMONT**Addison County**

Battell Biological Preserve—four miles east of Middlebury. A rare, undisturbed, virgin hemlock northern hardwoods climax forest. (May 1976) Owner: private.

Cornwall Swamp—two miles southeast of Cornwall. The largest unbroken red maple swamp in the state. (November 1973) Owner: state, private.

Little Otter Creek Marsh—two miles north-northwest of Ferrisburg. An outstanding, unspoiled example of a shallow water marsh maintaining itself under prevailing natural conditions. (May 1973) Owner: state, private.

Chittenden County

Camel's Hump—midway between Burlington and Montpelier and extending into Washington County. An exceptional illustration of the complex anticlinal deformation which formed the Green Mountains and the altitude-related zonation of its biota, containing the second largest extent of alpine tundra vegetation in Vermont. (April 1968) Owner: state.

Mount Mansfield Natural Area—three miles east of Underhill Center and extending into Lamoille County. An isolated, minimally disturbed site with virgin spruce fir forest on its upper slopes and an exceptional alpine tundra area on the summit ridge. (April 1980) Owner: state, private.

Franklin County

Franklin Bog—one mile east-northeast of Franklin. A magnificent example of an unspoiled, large, cold northern sphagnum-heath bog. (May 1973) Owner: private.

Rutland County

Gifford Woods—nine miles northeast of Rutland. A prime example of an undisturbed, old-growth northern hardwood climax forest. (April 1980) Owner: state.
